

LET THE DEAD BURY THE DEAD

There is nothing in the past over which to suffer, and no impulse to do so without first having been tempted and then deceived into revisiting, and then resisting the pain of some old memory.

Not only did the Christ teach this same truthful idea; but, for those with “ears to hear,” he also passed along a secret instruction. He said, if you wish to bring an end to this useless form of suffering ... “Let the dead bury the dead.”
